

ABOUT US

CRYSTAL NAILS – THE SUCCESS STORY

More than 10 years ago the brand Crystal Nails was created by the integration of top quality materials - manufactured in the USA and Europe - into one product family. After the initial successes, the serious development of the Crystal Nails products has started in cooperation with international champions and developing engineers.

The aim was to come up with such new products – at the beginning of each fashion season - that no one else has in the world. Innovation is the keyword of our success!

During the years, we managed to create a strong competitor team and unbeatable quality materials, what brought serious international fame to our nail technicians and Crystal Nails; WE WON 3 WORLD CHAMPIONSHIPS, 24 GOLD MEDALS AT LONDON NAILYMPICS AND 171 OTHER INTERNATIONAL COMPETITIONS WORLDWIDE...

We became the LEADERS OF NAILFASHION: In the countries of Europe, America and Africa more and more people fell in love with the Crystal materials, which were developed by top engineers and winners of professional world competitions. The result of their work is an extremely wide range of products: more than 40 different types of builder gels and acrylics, 500 types of color gels, 300 color acrylic powders, 300 CrystaLac gel-polishes (including the unique One Step CrystaLac system) and countless special effects. Everybody can find the perfect material, what suits her style the most!

The "Crystal family" is growing: we have partners in 28 countries and we are actively searching for new distributors, who are as dedicated to this profession as we are.

Nowadays, Crystal Nails is known as the market leader brand of champions. The sales of previous years show that more and more people choose us instead of our competitors.

As the founder of Crystal Nails I am happy and proud that I could be a part of an unprecedented story like this.

I truly recommend the innovations, products, courses, and events by heart- and especially the team spirit, and success philosophy to everyone!

Thank you for your trust and we will work even harder in the next 10 years to keep you contented with our materials and tools in order to stay your trustworthy partners at the salon!

Crystal Nails - the nail innovator

THE WORLD OF CRYSTAL NAILS

PHILOSOPHY OF SUCCESS

"As a leader of a team with 200 members, and as an engineer and a nail technician - I always insist on top quality without compromise. I consider it as an eternal challenge that the novelties in the nail tech profession should come from our lab. That is why I can recommend you the Crystal Nails novelties, high quality materials, noble tools, and professional courses from my heart."

THE CRYSTAL NAILS WORLD SUCCESS

Crystal Nails is available in 30 countries of 4 continents, and it is a leader brand in Italy, the home of fashion. In Hungary it is the first market leader brand (with multiple sales compared to any other brand).

Nail salons all over the world wait for the Hungarian nail technicians with open arms

- who work with the unique and reliable products of Crystal Nails .

INNOVATIVE TEAM WORK

In the last 12 years we managed to collect the most professional experts, which is the key of the top quality. American and Hungarian chemists use the science of polymer chemistry, and the champion educators use their huge experience to create the most perfect the Crystal Nails gels and gel polishes; as no one else has.

INIMITABLE DEVELOPMENT WORK

The development team of Crystal Nails is continuously searching for the new products and techniques. The result is a totally unique: typical Crystal Nails products: curve holder nail forms, extremely durable files, jewel brushes, Titanium gel, instant-drying glue, flexible shells, pigmented One Move paints, opal, Chameleon-color changing, no cleansing, perfectly covering Royal Gels, special gel polishes (classic 3 STEP CrystaLac gel polishes, ONE STEP CrystaLac gel polishes, ONE STEP Easy CrystaLac gel polishes and the unique chrome effect ChroMe CrystaLac gel polishes), Supernova Decoration Gels.

UNIQUE EDUCATION SYSTEM

Our customers can choose from more than 500 high quality color gels, nearly 300 color powders, plenty of surface effects, different shines, pigment density and tools. Thanks to the huge product range you can customize your supply to your own style and the needs of your clients.

DIVERSITY, ENORMOUS PRODUCT RANGE

Our customers can choose from more than 500 high quality color gels, nearly 300 color powders, plenty of surface effects, different shines, pigment density and tools. Thanks to the huge product range you can customize your supply to your own style and the needs of your clients.

TEAM OF CHAMPIONS

All Crystal Nails products are specially designed for salon work but their high quality makes them perfect for international competitions such as the Nail Olympics. Our 175 victories are a great achievement for our brand but the real champions are the nail technicians working with our products daily to create beautiful nails for their clients.

TITANIUM BUILDER GEL

XTREME CLEAR BUILDER GEL

SECRET INGREDIENT

MORE SPECIAL

Crystal Xtreme TITANIUM

TITANIUM GEL

TRANSPARENT MEDIUM THICK. SPECIAL XTREME BUILDER

Medium thick, bluish, clear builder gel, with special consistency. Due to a secret ingredient the material keeps itself together, does not flow. It is very easy to spread it on the surface, but it keeps the sculpted shape very well, which permits a guick and precise work. Ensures maximal control, which is an essential tool of the quality work. It can be used for the creation of both short and long nails, and can be pinched. We also suggest it for the nail techs with less experience. Apply it with a softer brush: 6 Gel brush, Xtreme Gel brush, Nero Merlo II. brush. Pinch time in the UV lamp: 40-50 secs, in LED 15-20 secs.

"I love the Titanium gel as it h adhesion, holding and p for bending. It is easy to with, because it does no	erfect Material of the work Kovacs Gabo

XTREME CLEAR GEL TRANSAPARENT. THICK. SUPER STRONG BUILDER

Crystal Nails

XTHEME

Top quality, dense, non-yellowing, purplish (UV filter and color brigthening effect), hard, clear builder gel. It is the strongest Crystal builder gel, so it can be pinched and shaped very well. Extremely shiny and adheres well. Perfect for extreme shapes and pinching. Can be used for the creation of both short and long nails. Cures fast because of the accelerator material. It might cause burning sensation, so cure the nails fractionally: first 5 secs, then take the clients hand from the lamp for 5 secs, then cure it for 10 secs, then you can pinch it. This way it will not cause burning sensation. Apply it with a firmer brush: Firm Gel or Nero Merlo III. brush. Pinch time in UV lamp: 10-15 secs, in LED llamp 5-8 secs.

Transparent, thick, can be pinched		Xtreme Clear gel for extreme purposes.	Good formability extremely durable

MORE RICH. MORE EXTREME!

BUILDER GEL

BASE GEL

UNIVERSAL ADHESIVE GEL Extremely strong clear, adhesive gel, with three phases. It has a remarkable adhesion promoter effect, It is the base gel of CrystaLacs, and it can be used as base gel at refillings. Applied to the natural nail plate **creates polymer bonding**, provides bomb-proof adhesion. Very easy to handle! Use it thinly in order to to reach the perfect result. Flexible, soak off. At problematic clients it is the perfect way to prevent lifting, or in case of extreme nails to prevent lifting at pinching. Use it under classic (3 -STEP) CrystaLacs as a base gel. With its help you can say goodbye to adhesion problems.

BUILDER BASE GEL

Incredible strength of adhesion, new development: say goodbye to adhesion problems even in case of the most problematic clients. Easy to apply, a bit more dense, the shorter brush makes your work more even. Apply under CrystaLac, but in this case the solubility will decrease, because of the stronger adhesion.

BUILDER GELS

GUM GEL

COOL GEL

Crystal Nails BUILDERCLEAR GUMGEN

GUM GEL

Moderately soft, clear builder gel with a soft bluish shade. Extremely flexible, formable gel. Easy to shape, file. It can be applied in the salon work perfectly. Very easy to handle. Because of its strong adhesion, apply it under any builder gel as a base at problematic clients. Moves together with the natural nail plate, that is why it won't lift and break. Because of its flexibility, it recommended to use it for the sculpting of nails with minimal length. Apply it with a softer brush: Xtreme Gel brush, 6 Gel or Nero Merlo II. brush.

CN tip: As a flexible product, it can be combined ONLY with flexible materials:, Nail bed extension: Cover Mani Gel, French free edg: Easy Off White, French Top White, 006color gel, shine: Easy Off Top Gel, Top Seal, Top Seal Light.

The Cover Pink materials were created to extend the nail bed; with it you can hide the regrowth at the smile line and the root of the nails. It has the same color as the natural nail bed. It is available in many shades, so every client can find the one what suits her skin tone the most. For the perfect coverage apply more gel at the smile line, but use less material towards the root of the nail, so the regrowth will remain invisible. If you want a more vivid shade, cover the Cover Pink with a transparent pink gel.

COVER PINK GEL FOR NAIL BED EXTEN

COVER PINK GEL FOR NAIL BED EXTENSION

or Nero Merlo II. brush.

FOR DARKER SKIN TONE The most popular gel for nail bed extension.

which has warm effect, natural color and covers perfectly. Its color is the

perfect match for most of the clients. Easy to use. softer type of gel.

You can create the perfect gradient towards the root of the nail with a few

movements, no more regrowth problem at the smile line, the nail bed can

be extended optically. Apply it with a softer brush: 6 Gel brush. Xtreme Gel

COVER PINK X **GEL FOR NAIL BED EXTENSION**

COVER PINK X

Crystal Nails

COVERPINK

Gel for nail bed extension with natural lighter pink color. For clients with a lighter skin tone- and affection to the more vibrant shades-in order to reach the perfect gradient. Wieldy, **softer gel**. Apply it with a softer brush: 6 Gel brush, Xtreme Gel or Nero Merlo II. brush.

ROCKY COVER HARDGEL GEL FOR NAIL BED EXTENSION

ROCKY COVER LIGHTGEL BUILDER GEL

Compared to the popular ROCKY Cover HardGel it is a less dense gel for nail bed extension. It has warm effect, midtone, natural color. The most popular Cover Pink color. Due to its level equalizer effect, it is very easy to spread. Does not move, flow, with its help you can create the perfect smile line. The best Cover, which is easy to use and can be pinched easily. Cures even if you apply it thickly. Use a softer brush: 6 Gel brush, Xtreme Gel or Nero Merlo II. brush.

"It is softer, but it does not run out. Keeps the arch of the smile line, its surface can be created evenly. It can be spread towards the root of the nail perfectly. It is simply beautiful, I adore it!" Nikolett Vétek

0.17 Fl Oz– 0.5 Fl Oz –

ROCKY COVER HARDGEL BUILDER GEL

Crystal Nails

COVERPINK

Gel for nail bed extension with cold, purplish, natural color. The thickest gel for nail bed extension, which does not move, does not flow away, you can shape it until the smile line gets perfect. Advantage: cures even applied it thickly and can be pinched. It doesn't have level equalizer effect, in order to spread it perfectly use a sliding layer. When applying, it softens from the heat of the hand, which makes the creation of the even surface easier. Apply it with a softer brush: 6 Gel brush, Xtreme Gel or Nero Merlo II. brush.

Cure time in the UV lamp 2-3 mins, in LED 1-2 mins

Crystal Nails

Solider get with factual effect and optimal coverage developed for relimings, it is a slightly covering Cover Pink, its color is identical with the most popular Cover gel. In case of nails with nail bed extention the regrowth area can be filled in full thickness. With less pigments, that's why even if you use in full height, it will look like as a regular nail bed extention gel worked towards the root of the nail, nicely mashed. The work is faster with it, as the Cover Pink and the Clear material can be replaced at the same time (2 in 1): due to its pigment content, the color of the nail bed will be even, it can be used for nail bed enhancement. Apply it with a soft brush: 6 Gel brush, Xtreme Gel or Nero Merlo II. brush.

Cure time in the UV lamp 2-3 mins, in LED 1-2 mins More dense version of the bestseller, natural nail bed color Cover Refill Gel, what was developed for refill. Perfect for sculpting and refill tool Similar to the popular Cover Pink color. Due to the ideal amount of pigments it covers perfectly at the smile line, but getting transparent at the cuticles. For nail bed enhancement too! In case of nail bed extension, the regrowth area can be totally filled in whole thickness, because the Cover Pink and Clear materials can be substituted with it (2 in 1).

WHITE BUILDER GELS

XTREME WHITE BUILDER GEL

XTREME WHITE GEL – SNOW WHITE THICK BUILDER GEL

Thick, warm snow white builder gel. It has high pigment content, so it has good coverage, if applied it thinly.Blindingly white, but cures well.**It can be spread easily.** Thick, doesn't flow, but it can be spread easily. We can create a nice even surface with it. Apply it with a softer brush: 4 Gel brush, 6 Gel brush or Nero Merlo II. brush.

Tip: Apply a base layer of transparent gel: thinner on the prepared nail, thicker on the nail form (according to the shape of the extension) Cure for 1 minute, then carefully remove the form. Now you can create the white free edge on the transparent extension. Its other advantage: in the UV lamp the light reaches the white gel even from below.

CN tip: The cure and pinch time depends on the strenght of the given UV and LED lamp in every case. In order to reach the proper result it is suggested to use Crystal UV lamp (Abulbs) or LED lamp. We can keep the bulbs under constant control. Change the bulbs in case of active salon work in every 6 months. Otherwise some problems may occur.(Fracture, detachment wrinkles.)

SOAK OFF GELS - FOR NAIL STRENGTHENING

S Crystal Nails

EASY OFF HARDENER GEL – CLEAR

Clear, soak off, flexible gel for nail strengthening. For natural nail strengthening. As strong as the classic gels.Recommended under **classic (3 STEP) CrystaLacs as nail strengthening.** Perfect for natural natural nail strengthening at pedicure. Cure time in UV lamp 2-3 mins, in LED 1-2 mins.

Use its own Top gel: Easy Off Top Gel!

CN tip: Use Base Gel under Easy Off in order to reach the perfect adhesion!

Nail strengthening effect

EASY OFF HARDENER GEL – MILKY PINK

Beautiful, slightly covering, natural milky pink gel for nail strengthening. Soak off, flexible.Recommended for thin nails or as a base of French nails. Covers the small imperfections by giving the nail a nice color. Advantage of the medium coverage: covers enough to hide the regrowth of the smile line, but there isn't any regrowth contour at the cuticles after 1-2 weeks. Cure time in UV lamp 2-3 mins, in LED 1-2 mins.

Use its own Top gel: Easy Off Top Gel!

EASY OFF HARDENER GEL – PINK

Transparent, soak off, flexible pink gel for nail strengthening.ecommended under **classic** (3 STEP) CrystaLacs as nail strengthening. Cure time in UV lamp, 2-3 mins, in LED 1-2 mins.

Use its own Top gel: Easy Off Top Gel!

CN COVERPRO CRYSTALAC – WHITE

We create the regrowth free gradient in gel polishing, like we do in case of artificial nails.

This regrowth free technique was brought from nail sculpting to gel polishing. We create the regrowth free gradient in gel polishing, like we do in case of artifi cial nails. As the color is mashed towards the root of the nail, the regrowth will not be seen. We developed the rounded CoverPRO brush especially for this technique.

Crystal Dails SOAK OFF GELS – FOR NAIL STRENGTHENING

COVER MANI GEL

Soft nail strengthening gel with natural nail bed color. Flexible, soak off. Covers well if applied thinly. Member of the Easy Off gel family. Use it with Gum Gel and Mani Tip (for the super fast regrowth free French nail strengthening). Cure time in UV lamp 2-3 mins, in LED 1-2 mins,

CN tip: Use on Gum gel as a gel for nail bed extension

> Nail bed extension gel type hardener

EASY OFF TOP GEL

CLEANSING, SOAK OFF

Clear shine gel with medium density. Very flexible, cleansing, soak off. Use it on: gel and acrylic nails, and classic CrystaLac. Good for nail strengthening with Easy Off Hardener gel and at Chro^oMe technique it is a plus, stronger top layer. After curing cleanse it with Cleanser in order to reach the perfect result.Cure time in UV lamp 2-3 mins, in LED-1-2 mins.

Extra shiny, flexible

Use it on: gel and acrylic nails and classic CrystaLac. Good for nail strengthening with Easy Off Hardener gel and at Chro°Me technique it is a plus, stronger top layer.

SOAK OFF MATT TOP GEL

Top gel with medium thickness. With its help we can create matte effect on the nails. Flexible, cleansing, soak off. Use it on acrylic, gel nails and CrystaLacs in order to reach matte effect. Cleanse it with Cleanser in order to reach the perfect result. KCure time in UV lamp: 2-3 mins, in LED 1-2 mins.

CN tip: Apply it in medium thickness, in order to get an even matte surface.

Makes any type of CrystaLac and color gel matte

MANICURE TIP (MANI TIP) DOUBLE AND SIMPLE

You can easily create the regular smile line with the help of the Mani Tip.

The double Mani Tip consists of 2 parts: one clear assistant tip, and one color French free edge. The clear assistant tip can be lifted easily, you have to push the thin color French tip - with glue on it- to the nail with the help of it. In 14 sizes for the perfect fitting. Can be used for gel nail strengthening. In 3 colors.

The simple Mani Tip consists of one free edge part, which you have to pinch to the nail with fingers or with tweezers.

> 140 pcs double tip box refill 20pcs

White

COLOR GELS

ROYAL GEL - CLEANSING FREE COLOR GEL IN ONE LAYER

New generation of colors gels. Highly pigmented; for this reason apply in a thin layer. After curing it doesn't leave a sticky layer and has a long lasting shine. If you wish to keep the shine even longer, cover with Top Seal Light gel or Easy Off Top gel. You can use to cover part or the whole surface also. Also due to Royal Gels high pigmentation, it is amazing to use for art: even subtle 3D effects or gel painting. Curing time: 2-3 minutes, depends on the UV lamp, Led: 1-2 minutes

CN tip: If you wish to cover an acrylic nails with royal gel, important you use a connecting layer between the 2 different system. For this purpose the most effective is Top Shine gel on the top of acrylic nails. Top shine will cure after 20-30 second lose the sticky layer, then buff the surface back and apply the royal gel.

We use Royal gel for sugar, sand and velveting effect techniques also.

GLASS EFFECT GELS

Besides the classic white French free edge, the colorful and the glass effect free edges are the most popular.

GIGA PIGMENT GELS - PAINTING GELS

The Giga Pigment gels contain more pigment, so the created patterns cover very well, even if we apply them thinly. They can be used for creating gradients and 3D effects. The high pigment content is ideal for pattern shading. Use it thinly for perfect curing. (4 minutes in UV lamp)! If it is thicker at some point, apply Top Shine, it helps to cure.

BAROQUE GEL

NEW! BAROQUE NAIL ART GEL

For metallic, 3D baroque effect designs.

Dense, easy-to-use, cleansing free product to create nice, convex patterns on the nail surface. Fast work even on shinny surface, no need for top layer.

In 5 metallic shiny colors.

Cure time: 3-4 mins in UV, 2-3 mins in LED.

0.17 Fl.Oz

CN tip: Use them with the new Nail Art Baroque stickers! Use the nail art gel to create special frames for the stickers, using Short "0" or Long "0" brush. Or just simply create very popular, baroque style ornaments. New, fast and fascinating!

ART GEL

CN tip:

Use it extremely thinly - minimal amount is enough on the brush to avoid curing problems.

CN tip:

Art gel paint gels can be used only for decorations - to cover the whole nail surface or the free edge, use Royal gel.

NEW! ART GEL DENSE PAINT GEL

New generation of color gels, what can be used for painting. Extremely high pigmentation, dense, cleansing free, what covers well even if you applied it very thinly. Doesn't flow or move at all. There is no time limit, we can work as long as we want. Use for One Move technique, gel nail art, thin lines or contouring. Nicer color transitions and more vivid colors. Available in 5 colors: yellow, red, blue, black (to create darker shades) and white (to create lighter shades). By mixing these colors every shade can be created. Cure time: 3-4 mins in UV and LED.

The original

gel polish

EXTREME DURABILITY AND VIBRANT COLORS IN 3 STEPS

CrystaLac is the result of a severe research and development: this color hybrid material combines the durability of gels with the softness of nail polishes. Due to its polish content it spreads easily and softly, and because of the gel content it cures totally in **2-3 minutes** (So the clients do not have to take extra attention to their nails like in case of nail polishes). Creamier consistency, **flexible and soak off**. There are no damage or scratches. Due to the PolyHybrid technology the CrystaLac is more durable and have higher coverage. Its colors have higher pigment content. The flat brush lays on the nails, so you can work more precisely and evenly with the material. Double sun protection, in silver- lacquered bottles! The 4 ml CrystaLac bottles have received longer caps, so holding them is more comfortable. Use it on natural nail plate. The base gel of the material is the Base Gel, its top gel, the Clear O/Top CrystaLac, or in case of nail strengthening: Easy Off Top Gel. The durability of the 3 STEP CrystaLac gel polishes is **3 weeks**. The soak off time is maximum 10 minutes (according to the thickness of the nail and the solvent's type). The CrystaLac cures totally in UV and LED lamp.

NAILART CRYSTALAC

NAILART CRYSTALAC

The NailArt CrystaLac is a strongly pigmentated soak off decoration material with a needle-sharp brush. Because of its high pigment content, you can not use it in bigger amount. Don't use it for creating French free edge, thicker designs or for covering bigger areas, becasue it won't cure totally. In case of proper use, the cure time in LED and Crystal UV lamp: 4-4,5 mins, in UFO lamp 4,5-5 mins.

NAILART CRYSTALAC KIT

We created a five-piece selection from our NailArt CrystaLacs, which are needle-sharp, super precise, and have high pigment content. We put 3 lovely colors of NailArt CrystaLac besides the black and white into the kit.

CN VELVET POWDER

At spring time the velvet powders became very popular, so we added 3 more colors. You can create new type of nail art with the soft, velvet effect powders. Its use is similar to Sugar effect technique. In 3 super shades.

PRISMATIC CRYSTALAC

NEW! PRISMATIC CRYSTALAC

NEVER-SEEN-BEFORE, AMAZING EFFECT, HOLOGRAM PRISM SHINE!

Never-seen-before, amazing effect CrystaLac, soak-off, flexible. Prismatic CrystaLac gives hologram shine to your nails as your client moves her hand.

In case of natural nails use One Step "0" or Super Shine Optic as base and top. In case of Easy Off Hardener gel nail strengthening technique, cleanse the Easy Off Top gel, then apply the layers of Prismatic and finish with the same top.

In case of gel or acrylic nails it works perfectly with any flexible top gel, e.g.: Top Seal Light or Easy Off Top (base layer cleansed so no sticky residue present when applying the Prismatic color .

Available in 8 mpressive colors!

0.14 FI Oz

CN tip: For faster work use cleansing free top. Otherwise always cleanse the top thoroughly before the application of Prismatic CrystaLac.

CN tip: In case of thin natural nails strengthen them with Easy Off Hardener gel, before you apply Prismatic CrystaLac.

CN tip: You can apply 2 layers of top over the Prismatic CrystaLac if your client uses her hand too much, e.g. because of housework.

CN tip: Always shake the bottle well before use!

CHRO°ME CRYSTALAC

CHRO^oME CRYSTALAC

CHROME EFFECT: WHAT WAS IMPOSSIBLE BEFORE!

Excpetional, revolutionary development, with unique gel polishing technique: chrome CrystaLac, what was impossible before! Flexible, soak off, metallic, chrome CrystaLac. You can reach maetallic chrome shine with the Chro°Me CrystaLac on both natural and artificial nails. Its base layer is the ONE STEP CrystaLac 0, top layer: Chro°Me Top. For the long-lasting effect – increase the durability with 1 week: in case of natural nails cover the flexible Chro°Me Top with the soak off Easy Off Top Gel, in case of artificial nails with Top Seal Light. You can use it after nail strengthening and on artificial nails: apply the ONE STEP CrystaLac "0" clear (=the base of the Chro°Me) on a refined surface. You can create special nail art desings with the Chro°Me CrystaLac.

Use it extra thinly (the brush should seem almost clean), do not seal the edges! Always shake it well before use! Chro^oMe CrystaLac dries in the air, but for the perfect result, cure it for 3-4 mins (at least) in the UV or LED lamp. The perfect chrome effect can be only reached with the official Chro^oMe technique.

CHRO^oME CRYSTALAC

PERMANENT. FLEXIBLE/SOAKABLE. CLEANSING FREE SHINE FOR CRYSTALAC AND/OR NAIL STRENGTHENING IN ONE STEP

THERE ARE TWO WAYS TO USE:

1. You can add an even more durable cover on your ONE STEP CrystaLacs 2. It gives you the chance to strengthen your NATURAL NAILS IN ONE STEP, without cleansing. It will not chip off or get matte. It protects the natural nails like a transparent, shiny shield for 2-3 weeks. You do not even have to buff thanks to its strong adhesion ability (We recommend the New Soft Touch Buffer, it will not weaken the natural nail).

ATTREME POWDERS
ATTREME POWDERS
OUTSTANDING QUALITY
CRYSTAL CLEAR COLORS
FINELY GROUND
NON-YELLOWING CURE IN STAGES -SLOW AT FIRST THEN GET FASTER

Being true to their Xtreme name these builder acrylic powders are really the height of acrylics: finely and carefully ground; crystal clear colors; quality polymerization; non-yellowing formula. For the medium salon nails, turned for medium work pace, in three exceptional colors. Also, in spite of being Xtreme it's available for a price of a normal powder!

0,6 Oz 0,99 Oz 3,6 Oz

the most intense, transparent pink acrylic powder
 excellent for nail-bed enhancement
 for a darker skin type

CN tip: it makes a beautiful contrast with a white free-edge in case of a nail with no extended nail-bed

- water-clear transparent powder - contains mild optical color intensifier

CN tip: use it on top of colored acrylics to get more vivid colors.

ULTRA WHITE

 flashy, cold white color with a pinch of bluish effect
 medium cure

Gabó Kovács six-fold

MASTER POWDERS

- CURE FASTER
- CURE SMOOTHLY AND QUICKLY
- FOR COMPETITIONS AND EXPERIENCED
 NAIL TECHNICIANS
- THE EVEN GROUND ACRYLIC GRAINS ENSURE THE NON-BUBBLE COVER

For experienced nail technicians and competitors: creamy, a bit more faster curing powders. For the beautiful French nails adjusted to the guest's needs.

0.6 Oz 0.99 Oz 3.6 Oz

CRYSTAL CLEAR

 water-clear transparent powder
 due to its fast cure it is excellent for covering the free edge so that the materials shall cure at the same time and the nail could be sculpted easily
 being so clear it is suitable for covering colored free edges

darker pink transparent powder
 excellent on top of Cover Pink powder for nail

 bed enhancement
 for a darker skin type
 it makes a beautiful contrast with a white free
 edge for nails without nail-bed extension

The winner material of the world champion

flashy white
 fast-cure acrylic powder
 ,warmer' tone

CN tip: Due to its fast curing time, it's perfect for competitions

Europe-champion material

Gabó Kovács six-fold

SLOWER POWDERS

- SLOWER CURE TIME, SMOOTH AND SLOW CURE
- CAN BE SHAPED, SCULPTED AND CURVED FOR A LONGER TIME
- GOOD FOR LESS EXPERINCED ACRYLIC NAIL TECHNICIANS
- CREAMY FORMULA
- NON-YELLOWING
- BUBBLE-FREE DUE TO ITS FINELY GROUND INGREDIENTS

For a slower work pace: creamy formula, slower cure time, powders can be shaped-spread for a longer time. Being finely ground the powder-liquid on the brush is creamy easily shaped and spread, also it's bubble-free.

0.6 Oz 0.99 Oz 3.6 Oz

TRANSPARENT PINK

 lighter, transparent pink
 for a lighter skin type
 for the less experienced nail technicians it's good for nail-bed enhancement

ULTRA WHITE DAZZLING WHITE

ultra white

0.6 Oz 0.99 Oz 3.6 Oz

DIAMOND Crystal Nails COVER PINK Master Powder COVER PINK DIAMOND

MALLOW SPARKLING - beautiful pearly color - tiny pink and gold glisters, - warm-effect - its base is the Cover Pink so it matches with most of the guests' skin tone

CN tip: use the Cover Pink Crystal and Diamond for building the whole nail in order to get a natural but still a finely glistering nail!

The new generation of Easy Powder building acrylic powders do not include the ,larger' size particles upon which the file will ,bounce' and therefore filing no longer requires the effort: your favorite Crystal Nails file glides on the surface of the nail with feather lightness. Bending is easily done due to the harmonized setting time: Clear+ and Pink+ are faster-cure, and the Cover+ White+ cure slower. It is a material that requires a lot of liquid (in case of not having the right amount, it can have bubbles). The pinks are slightly paler colors. The Easy Cover+ is the lightest Cover Pink powder.

CRYSTAL LIQUID

High quality liquid, which provides a suitable cure time for the acrylic powders. Relentlessly strong, fragrant air-cure, blue liquid, in which the acrylic grains are bathing and binding very strongly; they stick into the nail and do not give room to yellowing. Due to its special nature it provides flexibility to the material when being decorated and built.

13.6 Fl.Oz 17 Fl.Oz 3.4 Fl.Oz

Strong liquid with maximum adhesion! The winner material of the world champion

DAPPEN DISH

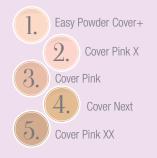

Double-walled thermal-balance liquid container for your acrylic cure not to accelerate in the summer and slow down in the winter. It provides the optimum temperature for the appropriate cure. The brush can be dipped into the liquid completely without touching the bottom of the jar. This way more fluid can be put on the brush and the brush tip will not be damaged. The cork will stop the liquid to evaporate.

COLOR VIVIDNESS RANK OF THE PINK MATERIALS:

COVER PINKS ACCORDING TO THEIR TONES

Crystal Dails

BRILLIANT ACRYLIC

GIGA PIGMENT FINE POWDER

FINE-GRAIN PIGMENT ACRYLIC: THE UNIQUE GENERATION OF COLOR ACRYLIC

Being so finely ground it is much easier to use it for decoration, and due to the high pigment content it covers very well even in a thin layer. That is why these powders (and only these) can make a very thin yet beautiful ,living' surface decorations that can be filed off easily from the surface when refilling (so for the new pattern there's no need for soaking off the entire nail). This option opens a new, elaborated dimension for the acrylic decorations.

CRYSTAL MAGIC POWDERS

Very spectacular effect with minerals instead of micas. It gives a special mineral sparkling to the underlying color and also has an iridescent effect.

PREPARATORY AND ADDITIONAL LIQUIDS

Crystal Quails PREPARATORY AND ADDITIONAL LIQUIDS

PREPARATORY

NO BUFFER SCRUB MILD AND SUPERFAST PREPARATION

Mild and superfast preparatory liquid for CrystalLac. Newly developed preparatory material that makes the classic CrystaLac and the ONE STEP CrystaLac processes ever so mild. The No Buffer Scrub replaces the use of Nail Prep/Spary Prep and the Primer as well as the buffering at ONE STEP CrystaLac. It has a strong dehydrating and degreasing effect so the nail does not need any more preparation.

Soak a fiber-free paper towel in No Buffer Scrub and rub the nail with it thoroughly. To have a better result after some fingers change the paper towel and get a new one. 1 fl. oz

4 fl. oz

Ready nails with ONE STEP CrystaLac color No 65

SPRAY PREP PREPARATORY, DISINFECTING SPRAY

A large amount of nail preparatory liquid in a practical pump spray form. It can be used as a hand and nail disinfectant sprav at the beginning of the treatment. Due to its degreasing effect it helps the adhesion of the template on the skin. For template building instead of Nail Prep we should use it as dehydrating-disinfecting liquid spraved in the nails. antiseptic, antifungal, dehydrating

and degreasing effects · Can be used both on your hands and the quests' hands

CN tip: in case of a cold, wet, sweaty hand use it many times because the template will stick on the finger better.

> 3.4 fl. oz Nail Prep/Sprav Prep refill17 fl. oz

NAIL PREP

Fungus preventive and dehydrating, PH-balancing preparatory liquid. Before using the Primer you have to wait until it dries completely. Its

0.5 fl. oz

PRIMER (ACIDIC)

Adhesion promoter liquid which distracts the moisture from the lavers of the nail. After the drying of Nail Prep or Spray Prep it should be applied in a thin laver on the surface but before that the excess on the brush must be left on the bottle neck or absorbed by a dry towel. Due to its acid content it must not touch the skin. It must be fully dry because it completes its effect over time! If it gets on the surface in a thick layer the nail plate would only dry seemingly.

0.5 FL. OZ PRIMER PENCIL

ACID FREE PRIMER ACID FREE PRIMER

Completelv acid-free. adhesion promoter liquid, which does not dry out completely it will still have a sticky laver. Therefore it should be applied in a thin layer, because this double-sided sticky part will function as an adhesive between the nail plate and the material that will be put on it. If we put more acidfree primer, this sticky bit will be thicker so the material on it will not stick on the nail plate and will peel off. The excess on the brush must be left on the bottle neck or absorbed by a dry towel so that no extra amount will get onto the nail.

0.5 fl. oz

NO LINE

REFILL HELPER

Special consistency product for making the refill lines and spots dissappear during refilling when the two material with ,age-difference' meet.

0.5 fl. oz

PREPARATORY AND ADDITIONAL LIQUIDS & Crystal Quails

CLEANSER - FIXING LIQUID

A fixing liquid to get rid of the sticky layer after cure in case of gels and CrystaLac-s. After use, the surface keeps its nice shine, it does not buffer. Use a fiber-free cloth. Soak well in the liquid and remove the sticky layer easily. To ensure the proper finish, after some nails choose a new, clean surface not to put the previous sticky bits onto another nail.

FILES

BUFFERS

REFINERY BUFFERS, PINK INSIDE

240/240 COMBINED FILE WITH BLACK CORE

240/240 With emery-cloth on one side, sand acrylic buffer on the other for fine filing and polish preparing.

WHITE BLOCK BUFFER

120/120

BLACK-ORANGE BLOCK BUFFER

NEW! CN FILE CORE AND SURFACE

Same color cores as your favorite files – blue, pink, green, white. The surface can be easily changed when they get dull, thanks to the adhesive surface. The surface suits perfectly to the core and sticks there completely. It is similar to the classic Zebra files, without sharp edges. File core

FINE-MATTING BUFFER

180/180 hardness, soft, flat, rectangular buffer. It contacts the nail on a big surface, so matting the nail takes only a few swipes. Due to its softness, it lines perfectly with the nail arch for better use. We use this buffer to prepare the nails for CrystaLac before using the No Buffer Scrub or Spray Prep materials. Due to its softness it is gentle, does not file deep into the nails. If we use this buffer for nail preparation, it will be easier to dissolve CrystaLac.

SHINE BUFFERS

MAGIC SHINE BLOCK

400/3000. Contacts the nail on a bigger surface.

MAGIC SHINE BLOCK

400/3000. Thinner, so the work is easier with it. Contacts the nail on a bigger surface.

MAGIC SHINE POLISHER

400/3000

Trystal Dails

CN tip: Use it to get beautiful, shiny nails. You can receive the best result while polishing gel nails.

THINNER 3-WAY BUFFER

240/800/3000

3-WAY THICK BUFFER

240/800/3000 Effective on bigger surface simultaneously.

CN tip: Use the 3rd side of 3-way buffer with skin care oil: buffer the nail for the perfect effect!

BUCKSKIN BUFFERS

the post of the po

CRYSTAL SHINE SYSTEM

CRYSTAL SHINE BUCKSKIN BUFFER

Buckskin buffer for the Crystal Shine System drops. Beautiful shine for the nails! Refine the nail with the black side of the buffer, than buffer them with the buckskin side soaked with drops.

MAGIC SHINE SYSTEM

Use: Refine the acrylic or natural nail to be buffered with the black side (or an even softer buffer) of the buckskin buffer. After thoroughly shaken - when you can hear the balls inside - put some magic shine drops on the buckskin side of the buffer, then buffer the nail with one direction movements. Tom Holcomb (12 times world champion, guest of the Nail Ship) always used it. You can buffer 10 nails with this quantity. If you have used the buffer several times, later use only 3-4 drops.

BUCKSKIN POLISHER

Gives maximal shine, for Japanese manicure.

BUCKSKIN BUFFER WITH HANDLE

BRUSHES

Crystal Dails GEL BUILDER JEWEL BRUSHES

CN tip: after use, clean the gel brushes between two paper towels. Cleansing with Cleanser may dries the brush hair, its use is not advisory. Use Cleanser only if the brush handle is covered with gel.

CN tip: Use separate brushes for pigment free materials, so your transparent materials will not be contaminated. CN tip: Scrub the glue thoroughly before first use, then cover the brush hair completely with transparent building gel. Then dry the brush with two paper towels so you can remove the pigments also from your brush.

JEWEL BRUSHES

High quality, exclusive design, good price, jewel effect, computer engraved logo. The brushes have their own cap and well-fixed handle so wobbling and moving is impossible. ,More jewel' jewel effect.

NERO MERLO II.

Soft, natural hair, excellent quality brush. The hair is a bit longer, than in 6 Gel brush. The precisely cut edge provides an accurate work. Due to its special form, it is an essential tool in the perfect professional salon. Use with medium dense and softer materials such as Titanium Gel, Builder Gel I-II, Cover gels or pink builder gels.

Nero Merlo II.

Xtreme Gel

Nero Merlo II: Gabo Kovacs world and olympic champion says: this is the best gel brush in the world, your will not want to put it down...

It is easy and fast to put on the material and create the smile line with this brush.

NERO MERLO III.

Natural hair, harder type, excellent quality. Shord and wide head. The hair form and length is like in Firm Gel brush. The precisely cut edge provides an accurate work. Use with denser builder gels such as Xtreme Clear and Xtreme Pink.

XTREME GEL BRUSH

Synthetic hair gel builder brush with 0,04 inch longer hair than in 6 Gel brush. Use with medium dense and softer materials such as Titanium Gel, Builder Clear I-II, Cover gels, pink builder gels or white gels.

GEL BUILDER JEWEL BRUSHES

CN tip: after use, clean the gel brushes between two paper towels. Cleansing with Cleanser may dries the brush hair, its use is not advisory. Use Cleanser only if the brush handle is covered with gel.

CN tip: Use separate brushes for pigment free materials, so your transparent materials will not be contaminated. CN tip: Scrub the glue thoroughly before first use, then cover the brush hair completely with transparent building gel. Then dry the brush with two paper towels so you can remove the pigments also from your brush.

6 GEL BRUSH

4 GEL BRUSH

Small gel brush with synthetic hair. Use mainly for color materials but also for white builder gel.

For smaller nails and decorations.

FIRM GEL BRUSH

Wide and thick so harder brush with synthetic hair. Specially designed for dense builder gels. Use with Xtreme Clear and Xtreme Pink.

Harder, wider brush for dense gels.

ACRYL BUILDER BRUSHES

CN tip: Before use scrub the glue thoroughy from the brush then soak it with Liquid and press out the bubbles. This way you can expand the lifetime of the brush! CN tip: After use clean the brushes in clean Liquid then dry them on paper with a pointy peak, store with head down or laid. Otherwise the Liquid may dissolve the glue from the brush handle which can color or contaminate the material.

CN tip: For pigmented, colored, glittering powders use a separate brush and even a separate liquid holder so you can keep the clean colors of your materials. CN tip: Use a deep, double walled Liquid holder jar so the brush does not touch the bottom. This way you can protect the point of the brush and it can absorb more liquid. The double walled heat balanced jar provides the proper time for curing.

THE BIG ONE - A GIANT ACRYLIC BRUSH

Large, flat professional acrylic brush with natural hair for experienced acrylists. The high quality hair has an excellent absorbency. The pointy peak provides precise work. Harder hair, greater compressive force. With a light wooden handle, metal cap, in a case.

For acrylic building

PROFESSIONAL (CHAMPIONSHIP) ACRYLIC BRUSH

Made of Kolinsky hair (with a special thickening pressing process), size 8 flat acrylic builder brush for experienced acrylic users. Higher quality, longer hair, softer style brush with great absorbency. The outside hairs precisely cover the inside hairs so it has a pointy peak and is easy to use. In a leatherette case.

ACRYL BUILDER BRUSHES

Crystal Nails

CN tip: Before use scrub the glue thoroughly from the brush then soak it with Liquid and press out the bubbles. This way you can expand the lifetime of the brush! CN tip: After use clean the brushes in clean Liquid then dry them on paper with a pointy peak, store with head down or laid. Otherwise the Liquid may dissolve the glue from the brush handle which can color or contaminate the material.

CN tip: For pigmented, colored, glittering powders use a separate brush and even a separate liquid holder so you can keep the clean colors of your materials. CN tip: Use a deep, double walled Liquid holder jar so the brush does not touch the bottom. This way you can protect the point of the brush and it can absorb more liquid. The double walled heat balanced jar provides the proper time for curing.

A8 ACRYLIC BUILDER

A size 8 acrylic builder with natural hair. Made of softer hair. Also for less experienced acrylic users.

A6 ACRYLIC BUILDER

A size 6 acrylic builder with natural hair. Due to its small size you can use it for color materials. Made of softer hair.

DECORATION JEWEL BRUSHES

CN tip: Before first use scrub the glue thoroughly, put into water then cut the separate strands off the peak.

GEL DECORATION JEWEL BRUSHES Crystal 2 Vails

CN tip: after use, clean the gel brushes between two paper towels. Cleansing with Cleanser may dries the brush hair, its use is not advisory. Use Cleanser only if the brush handle is covered with gel.

CN tip: Use separate brushes for dark or light colors, nacreous and glittering materials so your transparent materials will not be contaminated. CN tip: Scrub the glue thoroughly before first use, then cover the brush hair completely with transparent building gel. Then dry the brush with two paper towels so you can remove the pigments also from your brush.

NERO MERLO O BRUSH

Natural soft hair with round tip. The form and design provides precise work. For color materials, detailed painting and small surface. Due to its form it is easy to create the edge and the color gel superfacial gradients.

NERO MERLO I BRUSH

Natural soft hair with round flat tip and high quality. For fast color gel superfacial painting covering the entire nail surface. Its natural hair and the precise sharp form on the side make it is easy to create the cuticle and the smile line as accurately as possible so it will not touch the skin.

BARBARA I BRUSH

CN tip: after use, clean the gel brushes between two paper towels. Cleansing with Cleanser may dry the brush hair, its use is not advisory. Use Cleanser only if the brush handle is covered with gel.

CN tip: Use separate brushes for dark or light colors, nacreous and glittering materials so your transparent materials will not be contaminated. CN tip: Scrub the glue thoroughly before first use, then cover the brush hair completely with transparent building gel. Then dry the brush with two paper towels so you can remove the pigments also from your brush.

0 SHORT BRUSH

Synthetic hair, very thin, for flexible gel decoration. The 0.23 inch hair provides easier control to create gel patterns, smile lines and contouring. Less

0 LONG BRUSH

Synthetic hair, very thin, flexible gel decoration brush. With 0.39 inch hair. For creating gel patterns and smile lines.

2 GEL BRUSH

Synthetic hair, for gel decoration. Hair length is 0.55 inch, width 0.04 inch. For creating gel patterns.

Crystal 2

For color gel superfacial decorations

3 GEL BRUSH

Synthetic hair, gel decoration brush. Due to its beveled peak in the right angle it is easy to create gradient from glitter gel or to wipe smile line.

ONE MOVE DECORATION JEWEL BRUSHES rystal 2 Vail

CN tip: You can expand the life of your brushes if you wash the dried paint from the stem with the acrylic retarder liquid, then clean them with our orange scented brush cleaner!

CN tip: Before use scrub the glue thoroughly from the brush then soak it with water and press out the bubbles. Dry it and enjoy the use! CN tip: If you would like to create one move patterns with Royal Gel or Giga Pigment color gel, keep your One Move brushes separately. That is because if you use a brush with gel, you cannot use it with other materials.

The ''One Move'' technique is a fast and spectacular acrylic color painting method, when you paint the color transitions, lights, and shades with a brush dipped in different paints. The brushes are particularly designed for this technique, with special edgy hair. No need for correction with an other thin brush. Now easier to keep it clean, with longer life hair.

Crystal Dails ACRYLIC DECORATION BRUSHES

CN tip: Before use scrub the glue thoroughly from the brush then soak it with Liquid and press out the bubbles. This way you can expand the lifetime of the brush!

CN tip: After use clean the brushes in clean Liquid then dry them on paper with a pointy peak, store with head down or laid. Otherwise the Liquid may dissolve the glue from the brush handle which can color or contaminate the material.

CN Tip: You can use your Mini 3D acrylic decoration brush for gel or acrylic or aquarelle painting. Use separate Mini 3D acrylic decoration brush for acrylic, gel and water-based paint (acrylic, aquarelle). (Do not use acrylic or gel brush with water-based paints or vica versa, you will need brushes for each paint.)

3D ACRYLIC DECORATION BRUSH Natural hair, flat, pointy peak. Hair length 0.5 inch, width 0.19. The longest haired acrylic decoration brush. For bigger patterns A3 ACRYLIC DECORATION BRUSH Natural hair, flat, pointy peak. Hair length 0.43 inch, width 0.19 inch. Δ3 For general acrylic decoration THICK ACRYLIC DECORATION BRUSH Natural hair, flat, pointy peak. With great compressive force. Hair length 0.39 inch, width 0.17 inch. Crystal Nails. Black handle, metal cap, good price Thick small classic brush with Kolinsky hair and big compressive force

MINI 3D ACRYLIC DECORATION BRUSH

Natural hair, flat, pointy peak, high quality acrylic decoration brush. Hair length 0.31 inch, width 0.15 inch. The shortest haired acrylic decoration brush for creating precisely the smallest patterns.

For precise and fine acrylic patterns

The precisely cut hair provides pinpoint accuracy

BRUSHES

Crystal brushes with red, glassy handle, good quality hair for less experienced users (instead of plastic handles). Pretty design but good price.

Xtreme tips made of special plastic with a flexible, perfect form in an outstanding quality.

EXTREME FRENCH

Deep smile line, dramatic effect with no contactline. **box (100 pcs, 1-10)**

ARCHED

Pre-curved tip. Fits to any nail shape due to its extreme flexibility.

box (100 pcs, 1-10) refill (50 pcs)

STILETTO

Long, transparent tips with no contactline.

box(100 pcs, 1-10) refill (50 pcs)

HYBRID BOX

Long, spiky, transparent tips with centerline and no contactline.

box (100 pcs, 1-10) refill (50 pcs)

EDGE (CLEAR) - WITH SIDELINE CORRECTION

A tip developed for edge nail tips which is a great help with sculpting for beginners. The advantage of the Crystal Nails Edge tip is that it does not ,hang' like other tips due to its sideline correction (elevation). (As we know the form should be elevated as well when working with the sculpted version of Edge nails.) The other advantage is the optimized (a little shortened) length that makes it suitable for everyday use. Also its slimmer, more flexible, easy-fit with no contactline.

box (100 pcs, 1-10)

NAIL FORMS

Crystal Nails

Unique quality, strong adhesion, optimal curve and clear, visible scale. Ideal for salon work, and for sculpting salon nails with natural length.

1.49x2.20 in, free edge length 0.82 in

FORM UNDERLAY - ALUMINIUM

When sculpting curved or extreme shapes, glue it under the form, so you can create a smoother curve. No need to glue it perfectly, you have to bend it accurately. (The underlays are reusable, if you warm them up and take them off after work.)

Old (silver): 20 pcs New (many colors): 20 pcs

 We deepen the form underlay so that its curve will be matching with the form's.
 After this deepening we stick the underlay onto its back side.
 With the help of the bending tool you can form a tunnel.

XTREME BUTTERFLY FORM

Unique quality, strong adhesion, optimal curve and clear, visible scale. The most popular Crystal form. Ideal for salon work, and for sculpting salon nails with natural length and also for longer, extreme shapes. Made in the USA!

Size: 2.36x2.36 in, free edge 1.10 in. It has a free edge 0.78 inch wider and nearly 0.39 inch longer than the Crystal Nails form.

Unique quality, strong adhesion, optimal curve, **extreme length** and especially visible scale. No more form extension: its shape helps to build Stiletto nails. Narrow it down along the black and silver line, this helps shaping the form. The popular USA paper, Crystal curve. Size: 2.44x3.11 in, free edge 1.77 in.

30 pcs 250 pcs

30 pcs 300 pcs

TWO TYPES OF FORM DISPENSER AND SEPARATOR

You can make your work easier with a form dispenser: the plastic holder will make it easy and simple. The 'machines' will separate the forms from the paper. (To 'activate' the separating function the roll must be tighten.)

METAL TOOL KIT, SILVER

Stainless steel bending tweezers, cuticle pusher and scraper, nail art needle and dotter, mixer spatula, curved-edge tip cutter, cuticle and nail scissors, file, and brush holders (without the files and brushes in the picture). All in a silver textile leather box with magnetic inlay for the metal tools.

CN GOLD MANICURE SCISSORS (GOLD) – JAPANESE STEEL

High quality Japanese steel, it is harder, remains sharp for longer.

PROFESSIONAL ACCESSORIES

COSMETIC PADS

The developed version of the cosmetic paper towel. More regular for the more precise work. **500 pcs –**

COSMETIC PAD DISPENSER

No cosmetic pad included.

NAIL WIPES

Threadless sponge sheets in a new box package. Unlike paper towels, sponges gives you back the same amount of liquid, so it's more economical when cleansing. There are 80 in a box.

/box

100 PCS LINT FREE COSMETIC PAD

Fine synthetic fabric. Absolute lint-free.

CRYSTAL NAILS WIPES

You can keep your tools and jars clean with this practical wipe. While the Cleanser bites into the lids this wet wipe will not damage them, it makes them clean and shiny and also removes the dried gel.

PROFESSIONAL ACCESSORIES

REMOVER FOIL

With the help of the Soak off foils and Acryl remover you can remove the gel nail polish. The step by step video shows how to remover the gel nail polish properly. Soak them with acryl remover. This version of removal is more effective and economical. Also can be used for r removing acrylic, CrystaLac gel polish and Easy Off. **100 pcs/box**

C-CURVE HOLDER CLIP

To get a nicely bent shape, you have to curve the nail. This metallic C-curve holder clip will be a great help. Use it to get a slip, nicely bent nail.

With the recommendation of Zsuzsanna Fekete Olympic and 2 times European Champion!

CN tip: Do not use with extra strong base layers!

CLOTH GLOVES

The elastic fingertips ensures a better grip. The textile part ensures the perfect ventilation so they are more comfortable than the rubber gloves. In size 6, 8, 10.

C-CURVE HOLDER CLIP

This tool prevents the sculpted nails from losing their desired shape.

C-CURVE BENDING SET

While the nails are bent, the sticks prevent them from overbending and provide symmetry. Use them for fixing the bent shape.

6 pcs

NEW! C – CURVE HOLDER – TRANSPARENT

This tool holds the bent shape for the curing time. Due to its transparency, UV can go through it os he gel can cure under it.

Crystal Nails

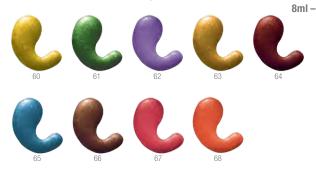

ONE MOVE ACRYL PAINTS

NACREOUS ONE MOVE

Our pearl One Move paints are sparkling in the sunshine like a luxury car. Available in 9 glamorous colors.

This transparent liquid mixed with acrylic paint slows the drying time. Add a few drops to your paint on a mixing pad, the more you add, the slower the drying will be. Comes handy, when it is warm outside. 0.34 fl.oz –

ONE MOVE ACRYL PAINTS

Crystal Nails

DECOR ONE MOVE

AQUARELLE CREAM PAINTS

The aquarelle painting (shaded, transparent) is really fashionable on nails too. In order to achieve this, you need the best, top quality, non shading, vivid paints! The nails are more colorful, professional and lively than before with the newly developed Crystal Nails Aquarell paints. Everybody will see the difference!

0.27 fl oz

DEKOR AQUARELL

NACREOUS AQUARELLE

Brand new 8 vividly glittering nacreous colors for decoration, contouring, and shading.

AQUARELLE CREAM PAINTS

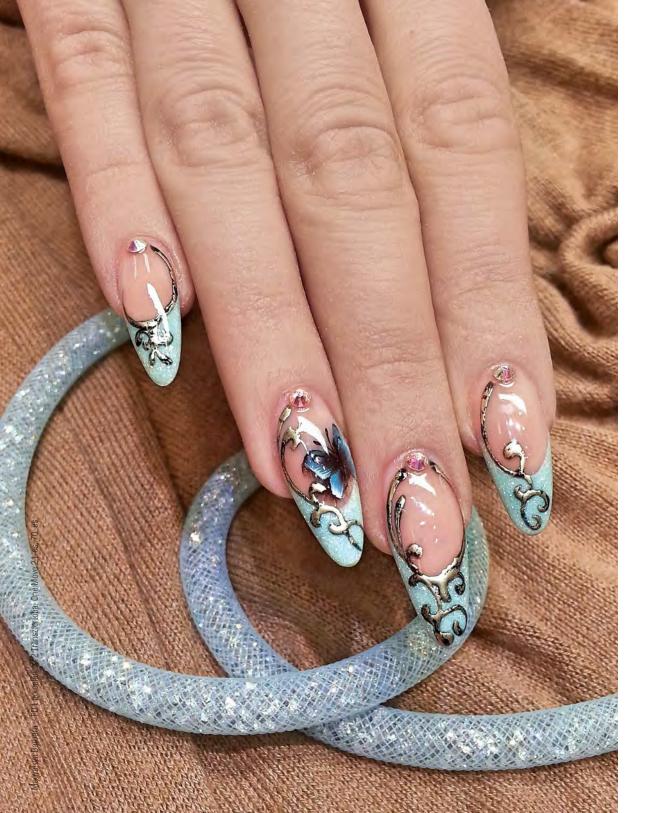

XTREME AQUARELL+

properly applied only on extra matted gel surfaces. Use slight Top Shine gel, after 20-30 sec. curing matte back with matting buffer. CN tip: The Xtreme Aquarelle+ cream paints can be watered down so the patterns are easy to correct or change.

Brand new, extra thin and very special foils with the best adhesion ever! They stick perfectly so foil technique has never been so easy. The new foils are good for covering even the whole surface of the nail without any gap between them. By making thin patterns we can create jewel-like embossed decorations combining it with foil gel. Available in amazing colors. Length: 19.68 in.

NEW! FOIL GEL – TRANSFERFOIL GEL

You can easily create beautiful - embossed - patterns made with foil with this perfect adhesion black gel. Easy to use: with a thin brush - like 0 Short, 0 Long or Barbara I - put on the required pattern of the gel and after one minute cure time press the bottom of the foil there. With a confident move peel it off the surface and there you are with a stunning decoration.

CN tip: cure time depends on the UV/LED lamp! It's between 40 second and 1 minute but it's also important how much foil gel you used. Test your lamp before use!

NEW! XTREME TRANSFER FOILS – EASIER TO SEPARATE, BRIGHT COLORS

Brand new, super thin, particular foils! Perfect adhesion, the foil technique was never easier before. The new foils can be used over the whole nail surface, without leaving gaps. Combine with foil gel and create 3D effect, jewel like patterns. Available in magnificent colors. 50 cm long.

Xtreme

19.6 in-

SUPER THIN FOILS!

ON THE WHOLE NAIL SURFACE TOO! PERFECT MIRROR EFFECT, IN ORDER TO HAVE JEWEL LIKE NAILS!

3D NAIL WRAP

20 pcs in a pack, choose your size just like in case of tips (you can narrow them with scissors). Stick it on, fi le the edges and apply some transparent nail polish over it. 18 different fashion patterns in 3D.

CRYSTAL OPAL

Synthetic opal gemstone grains. Glass-like designs, which makes our nails like jewels.

PERFORATED FLEX LUXURY SHELL

Ideal for fine nail art design - can be used with acrylic powder or gels.

FLEX SHELL

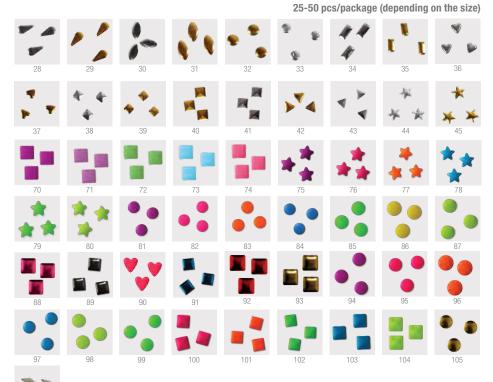

Top quality shell wraps for creating nail design - without perforation.

🕸 Crystal Nails

COOL ART RIVETS

For clients who are crazy for the latest fashion frenzy, the rivets! Extravagant and cool on shoes and accessories - try it on nails as well! 'Love' Peace and Rock and Roll!'

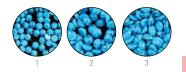

TURQUOISE GEMS

The plastic version of the turquoise gem (Triklin, the ,stone of knowledge') found in nature. In small round, big round and oval forms.

TRANSFERFOIL GLUE

Water-base glue for all transferfoils, in black and white colors. Wait until it dries completely and then put the backside of the foil onto the sticky surface. Don't use too much or too little of it.

easily make thin lines or finer patterns with it.

In two colors (AB white and Craem White). In 3 sizes.

0.059 in 0.07 in 0.11 in

NAIL ART DRAWER

Nail Art drawer with acrylic paint in 9 colors. For making patterns, drawing color and white free edge (for some it's easier to draw with a pencil than with a brush). After drying it can be covered with any artificial nail material without smearing.

GLITTER POWDER

NEW! GLITTER POWDERS

Crysta Mail Nail Art Drawer

🚯 Crystal Nails

FLASH CRUSRHED ICE, VIVID COLORS

More vivid and lively color foil grain that is almost shining on the nail. A bit similar to shell, a bit to opal still it's different.

SILK MICA

Fine glitter with small mineral grains. In 6 different shades.

MICA

Glitter with a special effect with flat, disc-shaped mineral grains.

ACRYLIC EFFECT STICKERS

NAIL STICKERS

If there is no time for decoration because your client must be off, decorate her nails with funny stickers.

CRYSTAL MERMAID POWDER

minutes in the UV lamp.

NEW! CRYSTAL MERMAID POWDER

Fall sparkling: you can cheer your client up on cold days, if she can shine all day! In addition, her environment won't take their eyes off from her hands, if you apply Crystal mermaid powder on her nails!

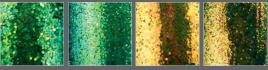

CN tip: Create trendy mermaid effect for your clients so their nails will shine bright like gemstones! 2 colors, 2 sizes. In new, exclusive black jar!

On GL24 White classic (3 STEP) CrystaLac base

On GL55 Black classic(3 STEP) CrystaLac base

On GL118 Soft powder classic (3 STEP) CrystaLac base

ELECTRONICS BY CRYSTAL NAILS

YOU NEED TO CHANGE THE TUBE WHEN THE TOP SHINE GEL. DOESN'T CURE IN 2 MINS!

PROFESSIONAL CRYSTAL UV LAMP M2 – PINK, BLACK AND NEW ECRU

Exclusive exterior, available in pink and black. Comes with gum soles. Strong (4x9W), with air ventilation. With time switch, mirrors inside. With the digit display es buttons, it's easy to work with. There is enough room for feet too! Special plastic socket for UV bulbs - for the more secure working conditions. With reinforced cable socket.

Reinforced cable socket

BASIC UV LAMP

A basic, but very pretty UV lamp. Mirror inside, 9W. Low price. You can pull off the top of it, if you want to change the tube.

ELECTRONICS BY CRYSTAL NAILS

YOU NEED TO CHANGE THE TUBE WHEN THE TOP SHINE GEL DOESN'T CURE IN 2 MINS!

ONE FINGER LED LAMP HOME VERSION

Practical, small, one finger, strong LED lamp hardens CrystaLacs in 30-60 seconds. Useable by two ways:

1) Household power – the box contains the adapter. 2) With 4 pencil batteries (the box doesn't contain them.) Even though it's one finger, it can compete with the traditional 4 finger lamps, because its hardens faster.

NEW! XPRESS LED – 5 FINGER LAMP

Practical, small, it cures classic materials faster due to its super strong LEDs – It cures CrystaLac in 30-60 seconds. The LEDs are positioned right above the nails. Even a bit more dense CrystaLac cures well thanks to the strong LED.

UFO LAMP

Double tube (2x9W) mirror inside, modern design. Has a big entry hole and a stronger transformer (lower temperature and voice).

NEW! LED TUBE

The UV tube can be substituted with it, reduce your cure time, 9W LED tube.

TUNNEL LAMP

4 double tubes (4x9W), time switch, mirror inside, air ventilation. Better design than the similar ones.

* These materials have a dry surface after curing.

Cure time always depends on the strength of the given UV lamp and LED lamp. For the quickest and most perfect result the 4-tubes Crystal UV lamp (or LED lamp) should be used where we can control the tubes continuously. In case of active salon work the UV tubes must be replaced about every six month otherwise curing problems can occur.

Crystal Dails ELECTRONICS BY CRYSTAL NAILS

NEW! XTREME DRILL 4

Dental quality premium tool with 30,000 RPM. Due to its special axle, it is super strong and totally resonance free. The four bearings ensure the quiet and smooth work. Very reliable product. Long lifespan – durable components, precise assembly, the dust can not get inside thanks to its construction. Changing the drill bit takes just a few seconds. Forward-backward rotation, 0 - 30,000 adjustable RPM. (Sold without the drill bit shown on the picture)

Small- for tiny places.
